Community & Brand Support

Describe your destination (who you are, who you wish to attract and why would they come) addressing your strengths, opportunities, and potential challenges. How does your destination align with Montana's brand pillars?

The small hamlet of Gardiner, known as “Nature’s Favorite Entrance to Yellowstone National Park”, is located in southwest Montana at the North Entrance to Yellowstone National Park. Nestled between the Absaroka-Beartooth and the Gallatin Mountain ranges, Gardiner is surrounded by approximately 10 million acres of public lands. The community enjoys year-round access to the Yellowstone River--the longest free-flowing river in the lower 48 states. Since the early 1880's, Gardiner has served as the original entrance to Yellowstone National Park and is graced by the historic Roosevelt Arch, dedicated by President Theodore Roosevelt in 1903.

Our community's small-town Montana charm, natural splendor, and abundant wildlife make it a unique "home on the range" for our nearly 900 residents. Year-round access to Yellowstone's Northern Range truly differentiates Gardiner from other Yellowstone gateway communities. The community also enjoys a rich history as the original entrance to Yellowstone National Park, which has left a flavor of Old West heritage evidenced by historic buildings and the Roosevelt Arch.

In response to the COVID-19 pandemic the Gardiner Chamber of Commerce & CVB continuously evolved our marketing message making it clear to travelers that when the time was right Gardiner was ready and welcome to traveler's business. It has been a little over year since the emergence of COVID-19, and Gardiner has experienced significant impact, both economically and with visitation levels. Though Yellowstone was closed for over two months, visitation was down only 9% for 2020, which can be interpreted to mean that once the gates reopened June 1st, that visitors made up for lost time. Specifically, the North Entrance Gate counts from July – December 2020 in Yellowstone were up by double digit percentages year over year. With Yellowstone experiencing their highest October visitation on record with just over 360,000 visitors, surpassing the previous record by 43%. With higher visitation Gardiner experienced a new type of traveler(s), many that had never come to a national park before, many that did not plan ahead, and many that were unaware of how to properly respect the landscape and how to recreate responsibly. (See attachment: YNP 2020_2019 Gate Counts.PDF)

With this in mind, our campaigns will still echo past successes – highlighting Gardiner's extensive local wildlife, small town charm, and historic past – and incorporate new messaging that educates on how to travel responsibly and respect Gardiner's landscape. To ensure a successful recovery from the impacts of the COVID-19 pandemic, from both an economic and safety standpoint of our residents, we recognize that above all else Gardiner's marketing message must be flexible – we are committed to doing just that.

Strengths: Our charming small town offers relaxing hospitality while providing full-service amenities. Many Gardiner restaurants offer local and sustainably grown produce and Montana raised beef. Visitors will find a diverse selection of accommodations including modern hotels and inns, rustic cabins, quaint cottages, relaxing B&B's, and vacation rentals. Our all-inclusive guest ranches offer our visitors horseback riding and fishing by day, and cowboy cookouts and campfires by night.

Year-round access to Yellowstone National Park and easy access to Forest Service and BLM lands provide visitors with an array of recreation opportunities. These include whitewater rafting, ziplining, cross-country skiing and snowshoeing, photography, wildlife watching, hiking, fishing, and soaking in hot springs.

Gardiner is currently enjoying the successful completion of a \$24-million-dollar infrastructure improvement as part of the nationally recognized Gardiner Gateway Project. The project's completion now provides visitors with vital amenities such as walkways, safer traffic routes, a Gardiner Visitor Information Center with public restrooms, and the Roosevelt Stage in Arch Park. The Institute for Tourism and Recreation Research (ITRR) released a report in 2018 showing that visitor perceptions of Gardiner have improved since the infrastructure development, especially in the areas of cleanliness, well-maintained storefronts, and community friendliness. (See attachment Gardiner MT_Visitor Perceptions Image and Spending Before.PDF)

Challenges: On July 14, 2020, Gardiner's downtown was severely impacted by a devastating fire that started in the kitchen of one of our dining establishments. It destroyed 4 buildings, 8 businesses, many jobs, and residential apartments. The immediate impact required for us to close multiple days due to the toxic smoke, but the long-term impact is exponential. There were three dining establishments destroyed (two of which held liquor licenses), and in an already small community with limited dining and beverage options, the loss of these establishments has severely impacted the visitor experience in town. Our existing dining businesses felt the increased impact, to the extent that they could not store enough food to get through a dinner rush. We foresee that the upcoming season will have these challenges continue.

A new challenge that revealed itself was the overuse of the recreational areas surrounding Gardiner. As campgrounds filled in Yellowstone, they also filled outside the park, which resulted in problematic behavior of dispersed campers that included leaving human waste, camping in hazardous roadways, illegal camping, illegal fires, and trespassing. Our local ranger district is doing all they can to mitigate this behavior, but they are limited as funding is reduced and staff are already serving as much as possible to Gardiner and surrounding areas.

The workforce has been dramatically reduced for the Gardiner area due to the inability to hire foreign J-1 employees, and businesses suffered last season as a result. Most businesses that relied on J-1's had staffing shortages that often resulted in irregular hours and inconsistent schedules. The lack of a strong workforce has undoubtedly served as a direct impact to the visitor experience.

Additional challenges include residential housing shortages, the unchecked emergence of short-term rentals creating a lack of affordable housing, public/private wildlife controversies, and lack of year-round staffing. In the winter and shoulder seasons, the lack of year-round staffing and a much lower visitation rate make it difficult for businesses to remain open resulting in a shortage of accessible visitor amenities. Gardiner's remote location also presents issues for visitor access and awareness. When all park roads are open, some visitors may choose to bypass Gardiner on their way to Yellowstone National Park. Lastly, added challenges will be navigating the final phase of the Gardiner Gateway Project which includes adding an additional lane and kiosk to improve traffic flow and reduce lines into the park. This phase will not be completed until end of 2021 and will cause delays for travelers entering Yellowstone through the North Gate.

Opportunities: While 2020 visitation exceeded expectations set by the pandemic, we still see the largest opportunity for tourism growth in Gardiner to be in the winter and shoulder seasons. According to National Park Service vehicle gate counts for 2020, October through March only contribute to approximately 26% of total North Entrance visitation. The primary goal of our long-term marketing efforts will continue to be focused on attracting more visitors from October through May in addition to adding an element of education and management to ensure that our landscape remains intact for future visitors to enjoy.

Brand Pillars: Gardiner aligns perfectly with the state's brand pillars. Located at the heart of the Greater Yellowstone Ecosystem, Gardiner is surrounded by unspoiled nature with beautiful vistas and landscapes that are home to some of the most abundant and diverse wildlife in North America. Gardiner prides itself as the historic gateway to Yellowstone's natural wonders. Our messaging focuses on the area's abundant wildlife, destination management and education, authentic and local hospitality, and year-round recreational activities as the only year-round entrance to Yellowstone National Park.

Describe your destination.

Inspiration: We will continue to inspire potential visitors through a multi-faceted marketing plan that includes print, digital and video advertisements, and engagement. We'll focus on the elements of Gardiner that make it unique and desirable – particularly the abundance of wildlife, small town charm, and historic ties to Yellowstone National Park.

Orientation: We'll continue to build out Gardiner-specific website content including blog posts, events, activities, lodging, and winter season opportunities to message Gardiner as a destination unto itself, in addition to a comfortable and authentic base camp to Yellowstone National Park.

Facilitation: Our Visitor Information Center and friendly, accommodating business owners will help facilitate visitors to Gardiner, Montana. Trip planning materials, recommendations, and complimentary Wi-Fi are available for visitors at the Gardiner Chamber of Commerce Visitor Information Center. Our mobile-friendly website as well as our comprehensive travel guide serve as valuable resources for our visitors throughout all phases of the travel decision process, with an added emphasis on planning ahead, and how to recreate well.

a. Define your target markets (demographic, geographic and psychographic).

The target market for increasing all visitation remains the geo-traveler. Efforts will target promoting the outdoors to the authentic experience seeker and wildlife enthusiast.

Adventurous families:

Couples and families, ages 45-54

College-educated

United States: especially from California, Texas, Washington

Affluent \$80,000+ per year

Interested in travel

Mature Nature-Based Travelers:

Interested in visiting Yellowstone National Park and partaking in activities such as scenic driving, day hiking, wildlife watching, and nature photography.

Most often from Washington, California, Idaho, Illinois, and Utah

Affluent \$75,000 + per year

Median age 60

Travel in couples

b. What are your emerging markets?

Visitors with novice experience of recreating in the outdoors and have not planned far in advance for their trip.

In 2020 Gardiner experienced a new type of traveler(s), many that had never come to a national park before, many that did not plan ahead, and many that were naive of how to properly respect the landscape and how to recreate responsibly. As COVID-19 affected the travel industry in unprecedented ways a shift into a road trip vacation began. With record breaking visitation in Yellowstone throughout 2020 the GCVB also broke records with over 36,000 visitors passing through our doors from May – September. With the halt on international travel, it is concluded that these guests were domestic. (See 2020 Completion Summary.pdf)

International Visitors interested in Yellowstone National Park

International visitors most often from Canada, India, United Kingdom, Australia, Germany, and China.

International visitors particularly from Canada, the United Kingdom, Australia, Germany, and France appear to be an emerging market for Gardiner, Montana. Data from 2019 Gardiner Visitor Information Center Visitor surveys show that Chinese visitors have declined and visitors from Canada, the United Kingdom, and Australia were our most common countries of origin for international travelers.

VisitGardinerMT.com Google analytics data from FY20 supports this information; it shows that most international website users were from the aforementioned countries – India with 4,119 users, Canada with 1,615 users, the United Kingdom with 1,031 users, France with 701 users, Germany with 598 users, and Australia with 521 users.

VisitGardinerMT.com Google analytics data from FY21 also supports this information; it shows most international website users were from the aforementioned countries – India with 4,590 users, Canada with 371 users, the United Kingdom with 470 users, and China with 578 users.

Although these markets have been on our radar thanks to tracking information from the Gardiner Visitor Information Center, the more regular use of Google analytics by Gardiner CVB staff has helped bring these emerging markets to the forefront of our attention. In FY22 we will continue to test these emerging target markets through using targeted social media posts and continued visitor tracking at the Gardiner VIC.

With the halt in foreign visitation in response to the COVID-19 pandemic it is important to keep international markets top of mind as travel restrictions begin to lessen. To support this target market it is important to reflect on past data in which foreign visitation was not limited.

c. What research supports your target marketing?

Drawing from information outlined in the Gardiner Visitor Information Center data, ITRR reports, results from our digital ad campaigns through our web agency TDG, and VisitGardinerMT social media/Google analytics, we believe our target markets can be divided into three categories: adventurous family travelers, mature geotrailers, and international visitors.

Additionally, based on data from the Gardiner Visitor Information Center and Destination Analysts infographics our emerging markets can be identified as visitors with novice experience in national parks, last minute trip planners, road trippers, and International visitors interested in Yellowstone.

In the attached document you will see detailed metrics supporting both our target and emerging markets. We thought it pertinent to include our emerging markets supporting metrics as they are a large part of our FY22 Marketing Plan and will continue to affect the landscape of our town. Before reading it is important to note the countries the in the Google Analytics Demographics FY2021. You will see that India, Pakistan, Indonesia, Mexico, and Brazil are among our top 10 domestic and international visitors to the VisitGardinerMT website and we have not identified them as a target market. After discussing the traffic with our web agency, TDG, it was found that while these were top visitors to the site the audience's the bounce rate was extremely high and amount of time spent on the site was extremely low. We concluded that these were most likely informational campaign bots and not a potential target market.

- Promote Gardiner in a way that we can anticipate exceeding the forecasted bed tax collections.
- Increase visitor travel to Gardiner and the Yellowstone Country region in the winter and shoulder seasons.
- Digital Campaigns: based off the metrics from the FY21 spring digital campaign (see attached FY21 TDG Digital Campaigns Compiled Overview), which used a mix of photo and video assets, we have set the following goals in terms of engagement for our future FY22 fall, winter, and spring campaigns.
 - Clicks: increase clicks by 15%

- Impressions: increase impression by 30%
- Video engagement rate: maintain video view rate of 35.57%
- Create a visitation conversion tracking (call to action) tool for our digital campaigns to better monitor campaign success.

Increase our digital presence:

Instagram: increase followers overall by 7.5% each quarter

- Quarter one 7.5% or 7,863
- Quarter two 7.5% or 8,425
- Quarter three 7.5% or 9,056
- Quarter four 7.5% or 9,735

Facebook: increase followers overall by 5% each quarter

- Quarter one 5% or 46,176
- Quarter two 5% or 48,484
- Quarter three 5% or 50,908
- Quarter four 5% or 53,453

a. In what types of co-ops with MTOT would you like to participate?

We would like to continue to participate in Joint Ventures with MTOT as our budget allows. As a smaller organization with limited funding, these opportunities to participate in larger campaigns and content creation are invaluable.

Specifically, if MOTBD were to offer a joint venture that focused on recreating responsibly and destination management the GCVB would be extremely inclined to participate.

We have found great success in online advertising as a cost-effective means of promoting our brand and would like to continue to seek out options for content creation and online advertising campaigns - especially to showcase our new seasonal promotional videos which were completed in FY19.

b. In what other types of co-ops would you like to participate? (Regions/CVBs, etc.)

We would love to participate in Joint Ventures with Yellowstone Country and regional CVBs as our budget allows. Specially we have found great value in; seek to pursue joint ventures that use a mix of digital and print media and provide the GCVB travel leads.

Additionally, if a joint venture were to arise that would bring influencer(s) and/or travel writer(s) to Gardiner in the winter months we would be interested. We feel that Gardiner offers a highly desirable winter experience with our abundant wildlife, opportunities for cross-country skiing, and oversnow tours in Yellowstone National Park.

Lastly, if our region or another CVB were to offer a joint venture that focused on recreating responsibly and destination management the GCVB would be extremely inclined to participate.

Due to budget constraints, it would be valuable to us to partner with Yellowstone Country or other regional CVBs in order to make this happen in FY22.

c. *What types of co-ops have you done in the past? Were they successful - why or why not?*

Yellowstone Country – Warm Season Print Cooperative

In FY20 we were able to partner with Yellowstone Country and three other Chamber/CVBs on their Warm Season Print Cooperative. This was a two-page spread included in Sunset Magazine, Midwest Living Magazine, and Northwest Travel Magazine. There was also one page for Yellowstone Country and one page including Gardiner, Big Sky, Red Lodge, and Bozeman. This joint venture has been successful. It not only gave up exposure in national publications but has provided us with over 1,400 valuable travel leads. We have been able send each potential traveler a Gardiner visitor guide, sign them up for email communications specifically our quarterly travel e-newsletter, and add them to our leads database that we can use for years to come.

Yellowstone Country-TripAdvisor

For several years now we have participated in the TripAdvisor Pages Joint Venture offered through Yellowstone Country. TripAdvisor is a key platform for destination marketing, and we have found the ability to have a presence on this site and the ability to provide content to be moderately successful. We hope to see improvements in our banner ad and click through rates and impressions in the future and will continue to monitor the metrics of these ads to determine if we want to continue this program in FY22.

MTOT RootsRated JV-

In FY18 we took advantage of the match program with RootsRated to create custom content for our webpage and online platforms. With limited staffing we are not able to create content as frequently as we would like, and we have found that blog posts and articles are key drivers to our webpage. Unfortunately, we were disappointed in the partnership overall; we provided our own local writers and received very few original photo assets (most were public domain photos available on the Yellowstone NPS Flickr page). It has proven easier and more cost effective to hire local writers directly to produce blog content.

This ad was also featured on the publications summer landing page. From the landing page we have received over 936 traveler leads including address and email that we have sent travel packs to and can keep on hand to communicate with in the future. [See materials in attachment YCountry Warm Season Print Materials]</p>	<p>Yellowstone Country If we are able to partner on another print and leads campaign, we will measure success by the engagement with our received leads such as email click through rates and number of travel packs we are able to mail out. If we can partner with YC on a fam tour, success will be measured by deliverables such as earned media, social media posts, and photos of Gardiner. If we can partner with Yellowstone Country on at least 3 joint ventures we will deem this successful.</p> <p>Additionally, a .5% increase in website traffic over FY21 would deem success for any joint ventures we participate in.</p>	\$10,000.00	Gardiner YCountry JV Reports & Materials.pdf

Consumer	Printed Material	<p>We plan to use traditional printed materials in combination with digital marketing to best reach our audience. We have found that printed materials are good for brand recognition and support for our other marketing campaigns, especially those for events. Printed materials could include but are not limited to rack cards, posters, flyers, stickers, postcards, mailers, and window clings.</p> <p>Our primary goal is to promote Gardiner as a year-round destination. Summer visitors act as ambassadors for our community. We want to take advantage of educating summer visitors on experiences they could have if they return in the winter or shoulder seasons as well as have them leave with information to pass along to their network on traveling in the Gardiner area.</p>	<p>In FY21 the GCVB had to do one reprint our Gardiner postcard that are handed out to visitors. Meaning that over 1,200 Gardiner postcards were distributed to visitors. Additionally, the Gardiner logo stickers required two reprints of 1,000 stickers a piece in FY21 indicating that there continues to be demand for these stickers. These in house statistics support continuing to use this method.</p> <p>Results show that tested advertisements employing premium-print technologies convey a greater sense of uniqueness and prestige than conventional advertising, boost consumer attitudes toward an advertisement as well as toward the brand and enjoy higher ratings on measures of willingness to buy, positive word of mouth, and consumer willingness to pay a price premium. Our goal will be to distribute at least 75% of the printed materials throughout the fiscal year before we need to do a reprint.</p> <p>The more stickers, postcards, etc. that are distributed the more awareness the public will have of Gardiner as a brand and destination.</p>	\$1,000.00		
Consumer	Print Advertising	<p>We want to combine traditional advertising materials with digital advertising to create a comprehensive marketing plan. We hope to continue advertising in magazines and newspapers that we gauged as successful in FY20 & FY21, such as Explore Yellowstone and the West Yellowstone Visitor Guide. We will also be open to new print advertising opportunities that have a digital component to promote shoulder and winter seasons and special events in the area during shoulder and winter season.</p>	<p>Destination Analysts https://www.destinationanalysts.com/insights-updates/</p> <p>Print usage in travel planning has risen close to 50% of American leisure travelers and the use of DMO print visitor guides has risen to just over 20%. While this rise may not signal any longer term trend there is clearly no evidence of a long-term decline in print or DMO guide usage. According to the <i>State of the American Traveler</i>, an independent research report by Miles Partnership, print has consistently shown strength and even slow growth in print usage over the last five years. 24.4% of travelers rely on offline media including TV, printed newspapers, magazines, etc. for travel inspiration.</p>	<p>The success of this method will be measured by the completed design and placement of 3 print ads in a variety of regional and local publications that focus on our target market. Consumer	Online/Digital Advertising	<p>With the help of our web agency TDG, in FY22 we will focus on brand awareness campaigns designed to reach likely travelers to the Yellowstone region in the fall, winter, and spring of 2021 and 2022. These campaigns will mimic the campaigns we delivered in FY20 and FY21, all of which rendered impressive results. As in FY20 and FY21 the campaigns will utilize the Google ads network to serve our target audience a series of responsive display ads that focus on Gardiner's abundant wildlife and year-round access to Yellowstone and use our promotional videos. All campaigns will use a combination of advertising tactics including remarketing to individuals who are compelled to visit the VisitGardinerMT website. Within these campaigns, we plan to add component(s) that will help us better track visitor conversions from them, as Google has a large emphasis on conversion tracking; by adding a "call-to-action" our web agency feels it will improve our targeting and boost our engagement rates.</p>	<p>1. Destination Management	Social Media	<p>The GCVB will use this money to boost posts on Instagram and Facebook to specific travel markets all with the educational component on what to expect when visiting Gardiner, recreating responsibly, camping, etc. Additionally, this will be used towards hiring out blog posts, social content etc. on the aforementioned subjects. This type of targeted social marketing will be key in capturing travelers who are planning their trip less in advance and more sporadically than in prior years.</p>	<p>A Destination Analyst survey of 960 respondents who plan to take 1 or more trips in 2021 were asked, “FOR YOUR NEXT LEISURE TRIP, HOW FAR IN ADVANCE WILL YOU (OR DID YOU ALREADY) BEGIN MAKING RESERVATIONS? Destination Management	Billboards/Out-of-Home	<p>In response to the COVID-19 pandemic, the new emerging markets, and a devastating fire that occurred in Gardiner on July 14, 2020 (further limiting dining options), we feel that there must be educational signage/messaging added in strategic locations to help manage the negative effects we have experienced from these crises.</p> <p>In FY21 we allocated funding under crisis management to place signage to manage the effects of the fire and COVID-19. While we are still finalizing plans for these signs (partnering with property owners and the local Forest Service district) we feel it is important to have money on hand to purchase additional signs, or other mediums of messaging, that will help manage/educate residents and visitors to Gardiner as concerns arises.</p>	<p>“An experimental study conducted by Reigner and Lawson (2009) examining the effects of messaging (indirect management) on visitor behavior at Haleakala National Park in Hawaii revealed that the type of messaging provided in visitor education materials can positively influence visitor behavior (in this case, the decision of whether or not to explore pools) which may result in resource degradation. Marketing Support	Fulfillment/Telemarketing/Call Center	<p>In FY19 we spent a significant portion of our budget and staff time on producing an industry-standard, comprehensive visitor guide to assist visitors in planning their trip to Gardiner. In FY20 and continued in FY21 we established a disbursement strategy that included drop shipping guides to regional visitor centers and airports, various state visitor centers and airports, mailing them upon request, keeping them well-stocked in the Gardiner Visitor Center and local businesses, and dropping them off in-person at regional visitor centers and airports when convenient.</p> <p>In addition, funds in this category will be used to continue to stock our visitor center with partner materials that are relevant to our visitors.</p>	<p>To support this method in FY20 the GCVB was able to drop ship 12,480 comprehensive Gardiner travel guides to 57 different locations in the states of Montana, South Dakota, Utah, Wyoming, and North Dakota. We also experienced a consistent theme of out of state locations requesting more guides & daily requests to have planners mailed to prospective visitors. Marketing Support	Administration	<p>We are a small but growing Chamber of Commerce/CVB with limited funding. Administrative Funding will support the salary of the Executive Director and Office Manager while they work on CVB related items. For FY22 we will continue to subscribe to Adobe InDesign and Adobe Acrobat to be able to create original content for both online and print advertising platforms. These funds will also be used to pay for items such as bank fees and postage.</p>	<p>Administration costs are a necessary line item in the budget. We anticipate to put 20% of new revenue collected toward administration.</p> <p>The Gardiner CVB has used Administration funds every year since becoming a CVB. While it may not be directly supported by specific research, experience has demonstrated that our organization's operations and successful marketing relies on administrative funds. Often the Administration funds budget is added or combined with other administrative funds provided by the joint operation of our Gardiner Chamber of Commerce. Without these funds it may not be economical or feasible to have permanent staff administering the CVB.</p>	<p>Maintain costs within the budget.</p> <p>Not to exceed 20% of our new annual revenue per Rules & Procedures.</p>	\$11,266.00

Marketing Support	Opportunity Marketing	<p>This year we would like to have money on reserve for emerging opportunities. In order for the Gardiner CVB to be competitive in today's market we need to be prepared for projects that can arise after the budgeting session has concluded. We would be open to print media, social media boosting, online digital advertising, SEO optimization, co-op, or joint efforts.</p>	<p>Being prepared for future endeavors that we are not currently aware of is forward thinking and alleviates being stuck in a rut doing the same projects every year. Keeping marketing fresh has significant positive impacts towards success.</p> <p>In FY20 we were able to purchase two door counters through opportunity marketing funds. These door counters have allowed us to track overnight visitation in our 24-hour informational and restroom vestibule as well as provided us with more accurate visitor numbers over our previous hand tally system.</p>	<p>Measurements of success will depend upon the opportunity we pursue and will be evaluated on an individual basis.</p>	\$1,417.00
